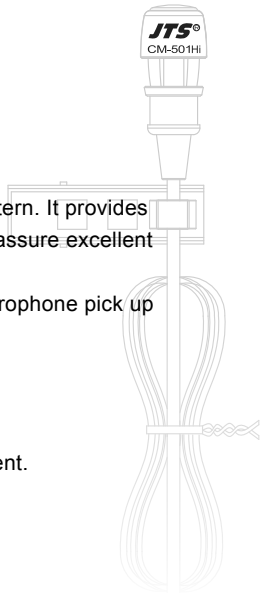
Headset Microphone

CM-501Hi

Condenser Lavaliere Microphone



The CM-501Hi deploys a high sensitivity capsule with unidirectional pick up pattern. It provides maximum gain before feedback. Wide frequency response and dynamic range assure excellent sound reproduction.
The latest clip set, CLP-258, provides versatile application. Single and dual microphone pick up are at your choice. CLP-258 assures optimal picking up for different dressings.

- Uni-direction for high-quality voice pick-up.
- Optimal gain before feedback.
- Wide dynamic range and frequency response for excellent sound reinforcement.
- Small size for minimum visibility.
- Together with clip set CLP-258 for easy attaching to a tie, lapel, dress etc.

Model No.	CM-501Hi
Type	Uni-directional Condenser
Frequency Response	100 to 15,000Hz
Polar Pattern	Cardioid
Output Level(at 1,000Hz)	-54±3 dB* (2mV) *0dB=1V /μbar
Impedance	Rated impedance is 3.7kΩ
Max. SPL for 1％THD	115dB
Standard Operating Voltage	5Vdc
Operation Voltage Range	3～10 Vdc
Current consumption	Max. 0.5mA
Output Connector	TA4F
Net Weight	21.5grams
Available Color	Beige / Black
